University of the West
UWest is a private, non-profit, accredited university in Rosemead, California, just ten minutes east of Los Angeles. UWest was founded in 1991 by Venerable Master Hsing Yun of the Fo Guang Shan Buddhist order. It is one of five worldwide universities and colleges in the Fo Guang Shan Consortium. UWest offers certificate, bachelors, masters, and doctorate degrees and enrolls 350+ students on a tranquil 11-acre campus. Undergraduate and graduate students at UWest enjoy small class sizes and personal attention.

Mission
The mission of UWest is to provide Whole Person Education in a context informed by Buddhist wisdom and values and to facilitate cultural understanding and appreciation between East and West.

Values
Belonging to a university community founded on Humanistic Buddhist principles means:

- Becoming people of strong CHARACTER who behave ethically, cultivate awareness of self and others, and develop wisdom.
- Practicing COMPASSION and working with others to relieve suffering and promote equality.
- Building a sustainable COMMUNITY by embracing diversity and achieving harmony through common purpose.

University of the West is committed to graduating students with the knowledge and skills necessary to achieve their educational, professional, personal, and spiritual goals and to perpetuate these values as the cornerstones in creating a better world – Character, Compassion, and Community.

President's Message
On behalf of the entire University of the West community, I am pleased to welcome you to our campus. It is our privilege to host the American Academy of Religion Western Regional Conference. We hope our peaceful environment encourages productive and inspiring sessions for the successful pursuit of your agenda. As UWest celebrates its 25th Anniversary year, it is appropriate to recognize and highlight our many strengths and historical traditions. As a university founded on Buddhist wisdom and values, we celebrate the strength of our religious studies programs and welcome the opportunity to join with the larger community of scholars to continue to pursue the important work at hand. Welcome to University of the West. We are delighted to have you.
Students
UWest has a uniquely diverse student body. Approximately half of students are international, mostly from East Asia, and half are domestic, mostly from Southern California. Students are UWest come from over 40 countries and over 30 U.S. states to study together. UWest offers degrees in Buddhist chaplaincy, business administration, English, liberal arts, psychology, and religious studies.

Buddhist Ecumenism
Another unique feature of UWest is the diversity of Buddhists living, working, and studying together on campus. Laypeople and monastics from all three major branches of Buddhism – Theravada, Mahayana, and Vajrayana – come together here, often for the first time. Monks and nuns in many colored robes are a common sight. UWest is also part of an interfaith consortium of graduate schools including: Claremont School of Theology, Academy for Jewish Religion, Bayan Claremont, and the Indic Foundation, enabling students of the five great world religions to cross register and study together.

Religious Studies
The Religious Studies Department was founded in 1991 and currently offers an MA in Religious Studies and a PhD in Religious Studies. Students in either degree can concentrate in Buddhist Studies or Comparative Religious Studies. Dr. Jane Iwamura serves as faculty chair of the department and welcomes AAR-WR attendees and presenters to campus.

Buddhist Chaplaincy
The Buddhist Chaplaincy program was founded in 2008 and became its own department in 2012. It currently offers one of only four accredited MDiv in Buddhist Chaplaincy degrees in the country as well as a first-of-its-kind Doctor of Buddhist Ministry (DBMin). Rev. Dr. Victor Gabriel serves as faculty chair and welcomes the AAR-WR conference to campus.
FRIDAY AFTERNOON, MARCH 17

10:00-3:00  AAR-WR Board Meeting – Ken Locke Hall
4:00-6:00  Registration – Lobby of Ken Locke Hall (see map for details)
4:00-6:00  Women’s Caucus Event (Room AD 208) - Intersectionality, Solidarity, and Mindful Attention: A Presentation and Discussion about De-humanization, Dignity, Community Sustainability, and Ultimately Flourishing

Presenters: Special Guest Diana Winston, Director of the Mindfulness Education at UCLA’s Mindful Awareness Research Center (MARC), Co-author (with Susan Smalley, PhD) of “Fully Present: The Science, Art, and Practice of Mindfulness” (2010), and Sarah Robinson-Bertoni, Ecology and Religion Co-Chair and Women’s Caucus Chair and Liaison to the Board, American Academy of Religion, Western Region.

This global, national, and local historical moment presents particular challenges, which may be transformed and engaged actively through cultivating understanding of intersectionality, solidarity, and mindful attention. With respect to our Buddhist hosts at the University of the West and the broader AAR Western Region conference theme of “Religion, Race, and Racism,” this interactive presentation will offer time for quiet reflection, active discussion, and scholarly engagement with aspects of this historical moment that call for moral leadership. The tri-partite themes can contribute toward navigating a moral compass toward greater respect for human dignity, ecological wholeness, and attentiveness to those most marginalized and victimized. As much of Women’s Studies in Religion has shown, scholarship is not value-free, but rather can be part of a larger arc of work toward worthwhile goals of compassion, justice, and the inextricably linked health of all human beings and our irreplaceable, living world, prioritizing the need to attend to the concrete, lived realities of those who suffer most.

Please RSVP to Sarah Robinson-Bertoni: sarahrobinsonbertoni@gmail.com. The AAR Western Region Women’s Caucus event is free and welcomes people of all genders to participate in this restorative work. Registration will be available at the door, but RSVP by March 11 is much appreciated.

Keynote (10:15 – 11:00 a.m.) Auditorium
Speaker: Crystal Blanton

Title: “The Intersection of Race, Religion, Oppression, and Culture in Today’s Times”

Bio: Crystal Blanton is a social worker, activist, writer, priestess, mother and wife from the Bay Area. She has a Masters in Social Work from California State University East Bay and has an undergraduate degree in Psychology. She has worked in the field of social work in many different capacities for the last 18 years and currently works as the manager of a program that delivers mental health services to underserved foster children.

Blanton is a board member for the Solar Cross Temple and the 2015 Keeper of the Light for the Pagan Alliance. She is the author of, *Bridging the Gap and Pain and Faith in a Wiccan World*. She is the editor of the *Shades of Faith and Shades of Ritual* anthologies, and co-editor of *Bringing Race to the Table; Exploring Racism in the Pagan Community*. She writes for the *Wild Hunt*, *Sage Woman*, and *the Daughters of Eve* blog on the Patheos site. She is the founder of the 30 Day Real Black History Challenge and website, promoting understanding and reflections of the experiences of Black people throughout history.

Blanton is passionate about the integration of community, spirituality and healing from our ancestral past, and is an advocate for true diversity and understanding. She works within her own spiritual community by facilitating and participating in discussions on topics of social justice, diversity, leadership, and the use of restorative justice practices to empower the community voice.

Abstract: Religion has always played a major role in the socio-political climate of the time and our role in modern society. The impact of religious practices has helped to shape how people engage in the world and with one another. There is a clear intersection that connects our individual and shared experiences of race, oppression, culture and religion, yet it is often disregarded in the religious narratives of the overculture. While these dynamics have existed for hundreds of years, today’s times have brought them to the limelight in a clear and undeniable way. Our communities are in crisis, and a need for togetherness and healing has become even more prevalent.

Some of the work on the next juncture of social change has to include a hard look at how religion includes or excludes people of color, those from different cultural
understandings, and directly connects to how we see and experience power as spiritually dynamic beings. Are we actively look at the needs of our marginalized folks or are we existing within the comfort of religious structures and ideology that does not include the voices of the oppressed? How does religion play a role in the empowerment of Black and Brown people today, even within the largely Eurocentric construct of our society?

Drawing on the research of current social science studies, culturally relevant data, and experiences of People of Color, we will explore some of the ways that religion has served as a gatekeeper to racial politics, oppression, religious intolerance and racism in modern times. Diving into the concepts of cultural awareness, transgenerational trauma, systemic oppression and marginalization within religious communities gives us a clear opportunity to gain insight into the ways we can improve our religious and spiritual communities together. Exploration of the specific cultural needs of people of color, and the racial divide that exists within our modern community can also bring us to a place of working for collective healing.

Special Session: “How To Be A Sanctuary” (4:00 – 5:30 p.m.) Room ED 300B

Participatory Workshop

Moderator: Marie Cartier, California State University, Northridge; University of California, Irvine

Abstract: This is a participatory workshop designed to help participants understand what it means to “be a sanctuary” for someone who is being bullied or harassed. We will roleplay how to “ice out” the harasser and stand in solidarity with the person bullied. Dr. Cartier has peace-keeper training and has worked with ACT UP and other organizations. These techniques are ones she also teaches to her students—especially in light of our recent “election.”
